Forecast For West Midlands
Issued by Met Office Exeter
at 1600 on Monday 22 Mar 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Remaining largely dry but often cloudy.

This Evening and Tonight:
Remaining dry tonight with variable cloud amounts and occasional clear spell at times. Overnight, these may allow patchy frost and fog to form in places. Minimum temperature 0 deg C (32 deg F).

Tuesday:
Largely dry but often cloudy on Tuesday. Cloud will continue to build during the afternoon, with the odd spot of drizzle possibly arriving from the west later. Maximum temperature 13 deg C (55 deg F).

Outlook for Wednesday to Friday:
A band of rain will move across the region on Wednesday morning. Blustery scattered showers on Thursday and Friday with a risk of thunder and hail. Turning colder on Friday.
